Where international, state and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking entity.

¹ A '*' following a place name indicates that the place is coextensive with a MCD. A '*' following an incorporated place name indicates that the place is also a MCD; the place and MCD is shown as one entity. The place name is preceded by the subject entity, nontribal census tract boundaries are shown outside of the subject entity but without numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on the boundaries of the tribal entity. If a tribal census tract crosses state or county boundaries, the same tribal census tract number may be assigned to both sides of the boundary and, if so, constitutes a single tribal census tract entity.

² A '*' following a block number indicates that the block number is repeated elsewhere in the block.
